

# PracticePlus<sup>®</sup> Overview

## What is PracticePlus?

PracticePlus is a product-support program for independent vision care practices. The program provides \$10 for every pair of KODAK Progressive Lenses dispensed and redeemed, along with other tools like staff training and POS materials to help build your practice.

PracticePlus differs from co-op programs because the use of the funds is left to your discretion. You may choose to have it paid directly to your dispensers as a trouble-free rewards program or, if you have the funds paid to the business, you might use it for a newsletter, your website, advertising, bonus programs, employee parties, travel to Vision Expo, or even to purchase new equipment. The important thing is YOU decide what is best for your office.

## How much could your practice receive?

One KODAK Progressive sale a day will yield \$2500 a year (based on 250 workdays). Ultimately, you decide how much you receive. The more you purchase and redeem, the more funding you will receive to build your practice.
